ABOUT THE SUMMIT

The University of Oxford has world-leading researchers and research capabilities in sustainable finance and investment. In 2023 we are hosting our second Oxford Sustainable Finance Summit, bringing together leading researchers from across the University with practitioners, policymakers, regulators and civil society organisations to examine and reflect on the latest developments in sustainable finance.

Topics

- **Adaption and resilience**
- **ASEAN spotlight**
- **Biodiversity**
- **Collective Intelligence**
- **Enforcement and greenwashing**
- **Environmental Stress Testing**
- **Index design**
- **Legal innovations**
- **Net Zero Aligned Offsetting**
- **Stewardship and Engagement**
- **Transition plans**
- **Water Security**

WELCOME

Dear Participant,

Welcome to the second Oxford Sustainable Finance Summit!

Sustainable finance has faced many challenges over the last year. While we have seen trillions of dollars of private sector capital being committed to net zero by 2050, growing pushback against net zero targets and the adoption of ESG practices has dominated much of the debate since.

Our Summit, bringing together leading researchers with practitioners, policymakers, regulators, and civil society organisations gives us an opportunity to examine and reflect on the latest developments and co-create solutions on a wide range of fronts, from biodiversity and nature to adaptation and resilience.

It also gives us an opportunity to have open conversations about what we need to improve on as a community of both research and practice.

One such area is academic freedom and free inquiry. We are lucky to benefit from productive research partnerships with some of the world's best financial institutions, but I am becoming more aware of instances where organisations, including financial institutions and ESG data providers, have sought to undermine academic freedom in sustainable finance and ESG. They have done this by, among other things, trying to change the results of research before publication, or sought to prevent it from being published at all. Harassment and intimidation, including through the threat of legal action and the withdrawal of funding, has been used to bully individual researchers.

WE CONTINUE TO STRIVE FOR DIVERSITY, IN ALL OF ITS SENSES. AS WE LOOK AHEAD TO THE 2024 SUMMIT, WE WOULD REALLY VALUE SUGGESTIONS FOR FUTURE SPEAKERS AND PARTICIPANTS THAT COME FROM UNDER-REPRESENTED GROUPS.

This is clearly unacceptable and I recently called out some of these things in a recent article in *The Financial Times*.

There are many more financial institutions and data providers collaborating productively in the spirit of free inquiry with academics than those trying to inhibit academic freedom. But if this conduct becomes more widespread, it will harm research quality and deter researchers from working on sustainable finance. Fortunately, it is an entirely fixable challenge and our community must play an important role in having an open conversation about the extent of the problem, its causes, and the potential solutions.

Do reflect on this challenge and if you are a researcher experiencing harassment and intimidation at the hands of unscrupulous organisations, we will have your back. Feel free to contact me for a confidential conversation.

My other call to action is to help us continually enhance diversity at the Summit. We continue to strive for diversity, in all of its senses, across our sessions. At the time of writing it looks like we'll be at a 50:50 gender balance for speakers and chairs. This is a slight improvement on last year, but there is always more to be done. Unfortunately we continue to perform much less well on other forms of diversity, particularly ethnic, cultural, and cognitive diversity.

As we look ahead to the 2024 summit, we would really value suggestions for future speakers and participants that come from under-represented groups. Please do reach out to me or colleagues with ideas or, even better, with introductions.

Finally, the Summit programme has been designed closely with my colleagues across Oxford. The sessions are all on topics where we are doing significant work here at the University and I hope you'll get that sense from the panels and discussion.

We are delighted to host you for what we hope will be two very special days. Use the time together to critically engage with emerging theory and practice; catch up with old friends and make new ones; and have some fun in lovely surroundings. Enjoy!

Yours sincerely,

Dr Ben Caldecott
Director, Oxford Sustainable Finance Group and the Lombard Odier Associate Professor of Sustainable Finance, University of Oxford

LOGISTICAL INFORMATION

How to get to Examination Schools

Train

Oxford railway station is approximately a 20 minute walk away or 10 minutes by taxi. Bikes can be hired at the train station or around the city.

Bus

The nearest bus stop and airport bus stops are on the High Street just outside the Examination Schools (Queen's Lane stop). Information about buses in the city can be found [here](#).

Car

There is no car parking on site so we recommend using the park and ride system. Alternatively car parks are available across the city. The nearest one is St Clements.

Access into the venue is via the main entrance on the High Street via double doors that lead directly into the Great Hall and then on to all the rooms in the building. This entrance can be accessed via three small steps

Guest WIFI

Username: ExSchWifi

No password required

Dress Code

The dress code for the summit including the drinks reception and dinners is business attire.

Covid-19

We are following the University of Oxford's Covid-19 guidance and currently there are no restrictions in place. However, it is still important for us all to continue being considerate and to take steps to minimise the risk of infection. All guests are welcome to wear masks throughout the summit and all indoor spaces will be well ventilated.

SUMMIT VENUES

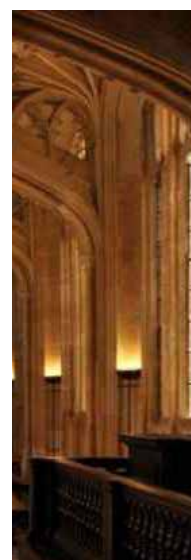

EXPERIENCE OXFORD'S INSPIRING BUILDINGS AT THE OXFORD SUSTAINABLE FINANCE SUMMIT 2023.

THE EXAMINATION SCHOOL

Main conference venue on Wednesday 19th and Thursday 20th July 2023.

Built between 1876 and 1882 and designed by Sir Thomas Jackson, this historical Grade II listed venue was created to house the University of Oxford's examinations. Situated in the heart of Oxford, it is easily accessible via a range of public transport methods and is within easy walking distance of many of Oxford's landmarks.

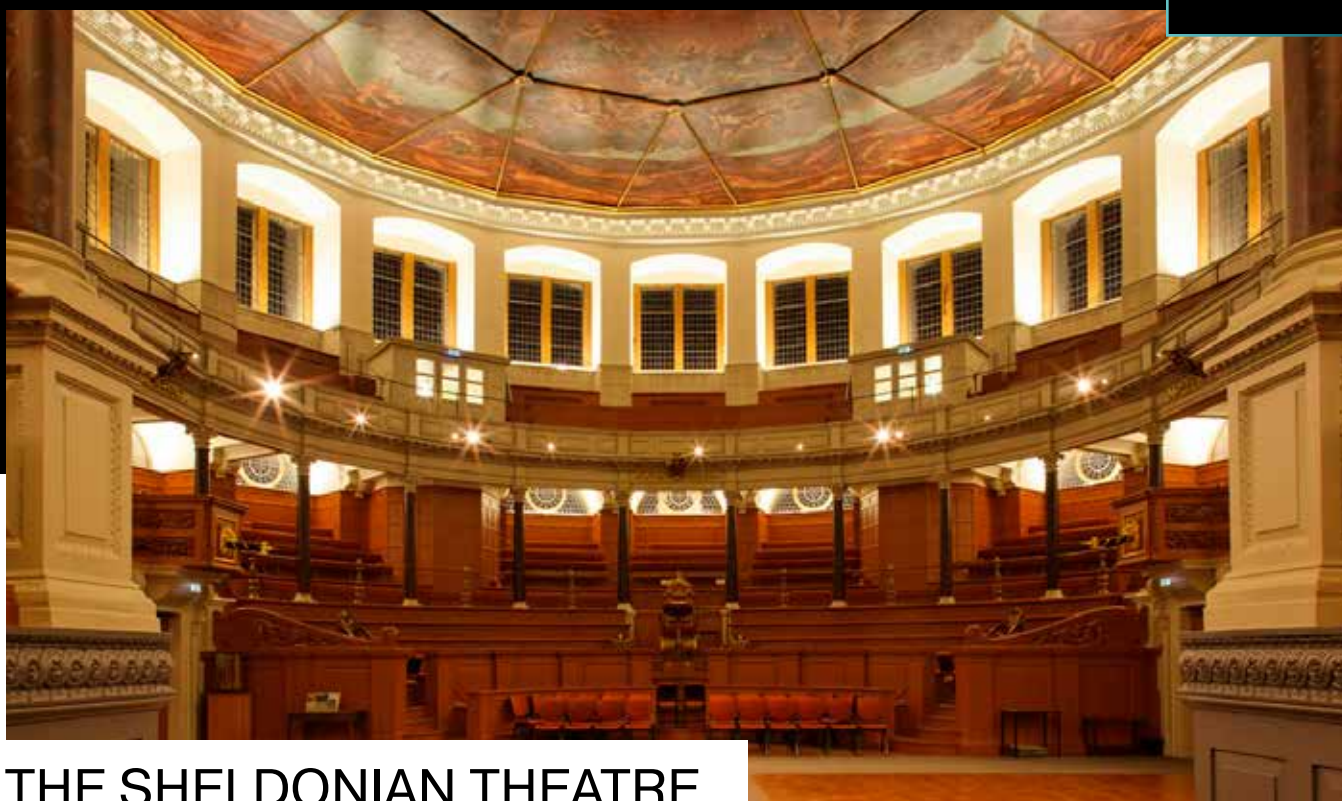

**BUILT BETWEEN
1427 AND 1483,
IT IS THE OLDEST
SURVIVING
PURPOSE-BUILT
BUILDING FOR
UNIVERSITY USE**

THE DIVINITY SCHOOL

Drinks Reception and Dinner on Wednesday 19th July 2023.

Dinner on 20th July will be held at the beautiful Divinity School. Built between 1427 and 1483, it is the oldest surviving purpose-built building for university use, specifically for lectures, oral exams, and discussions. Today the School is used before graduation ceremonies and for other important university events.

THE SHELDONIAN THEATRE

Closing debate on Thursday 20th July 2023.

Designed by Sir Christopher Wren and completed in 1669, the Sheldonian is the ceremonial heart of the University of Oxford.

THE ASHMOLEAN
IS THE OLDEST
MUSEUM IN
THE UNITED
KINGDOM

THE ASHMOLEAN MUSEUM

Reception and dinner on Thursday 20th July 2023.

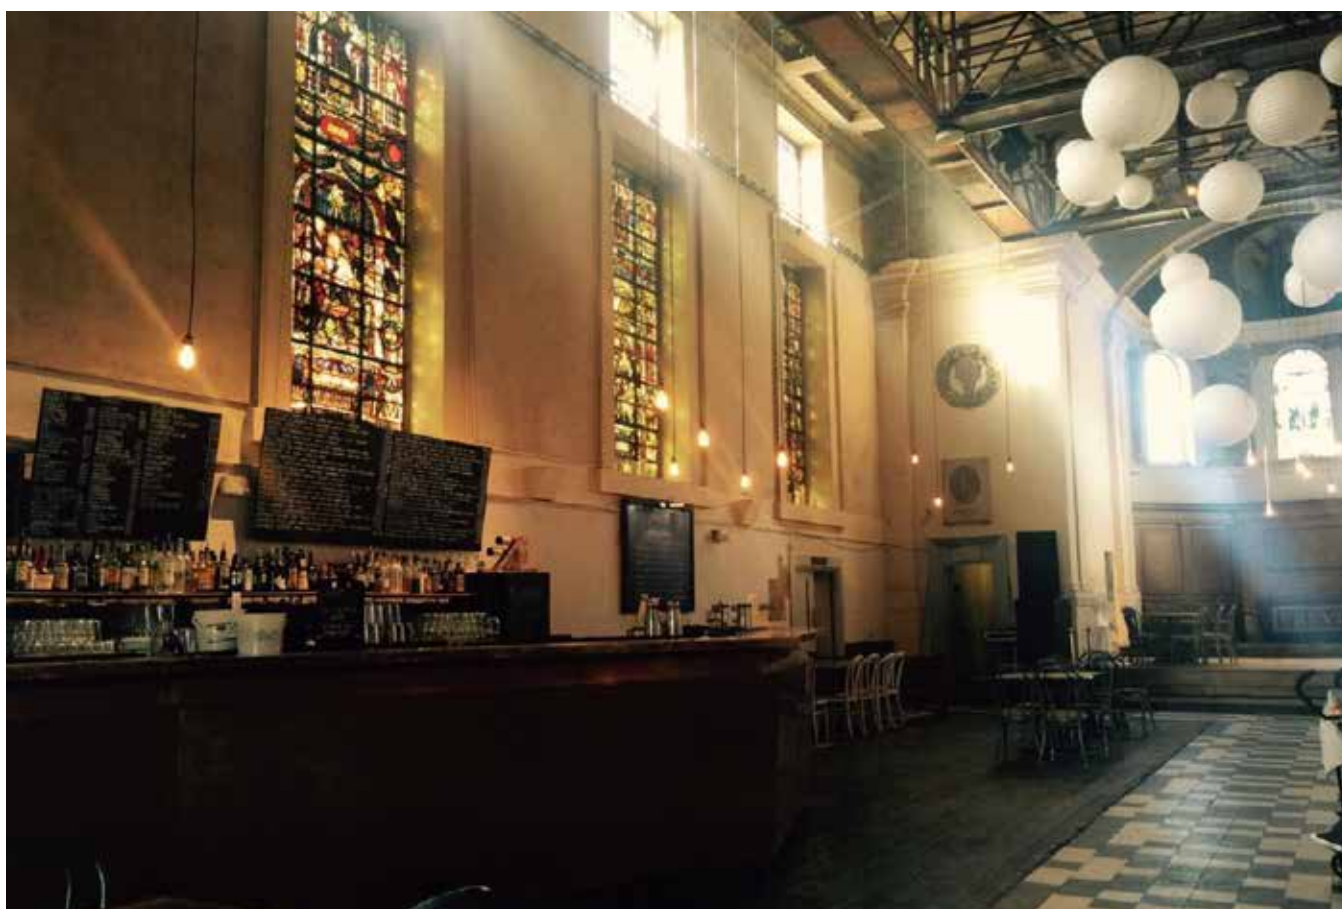

The Ashmolean Museum of Art and Archaeology in Oxford was established in 1683. The Ashmolean is the oldest museum in the United Kingdom and houses the University's collections of art and antiquities.

FREUD OXFORD

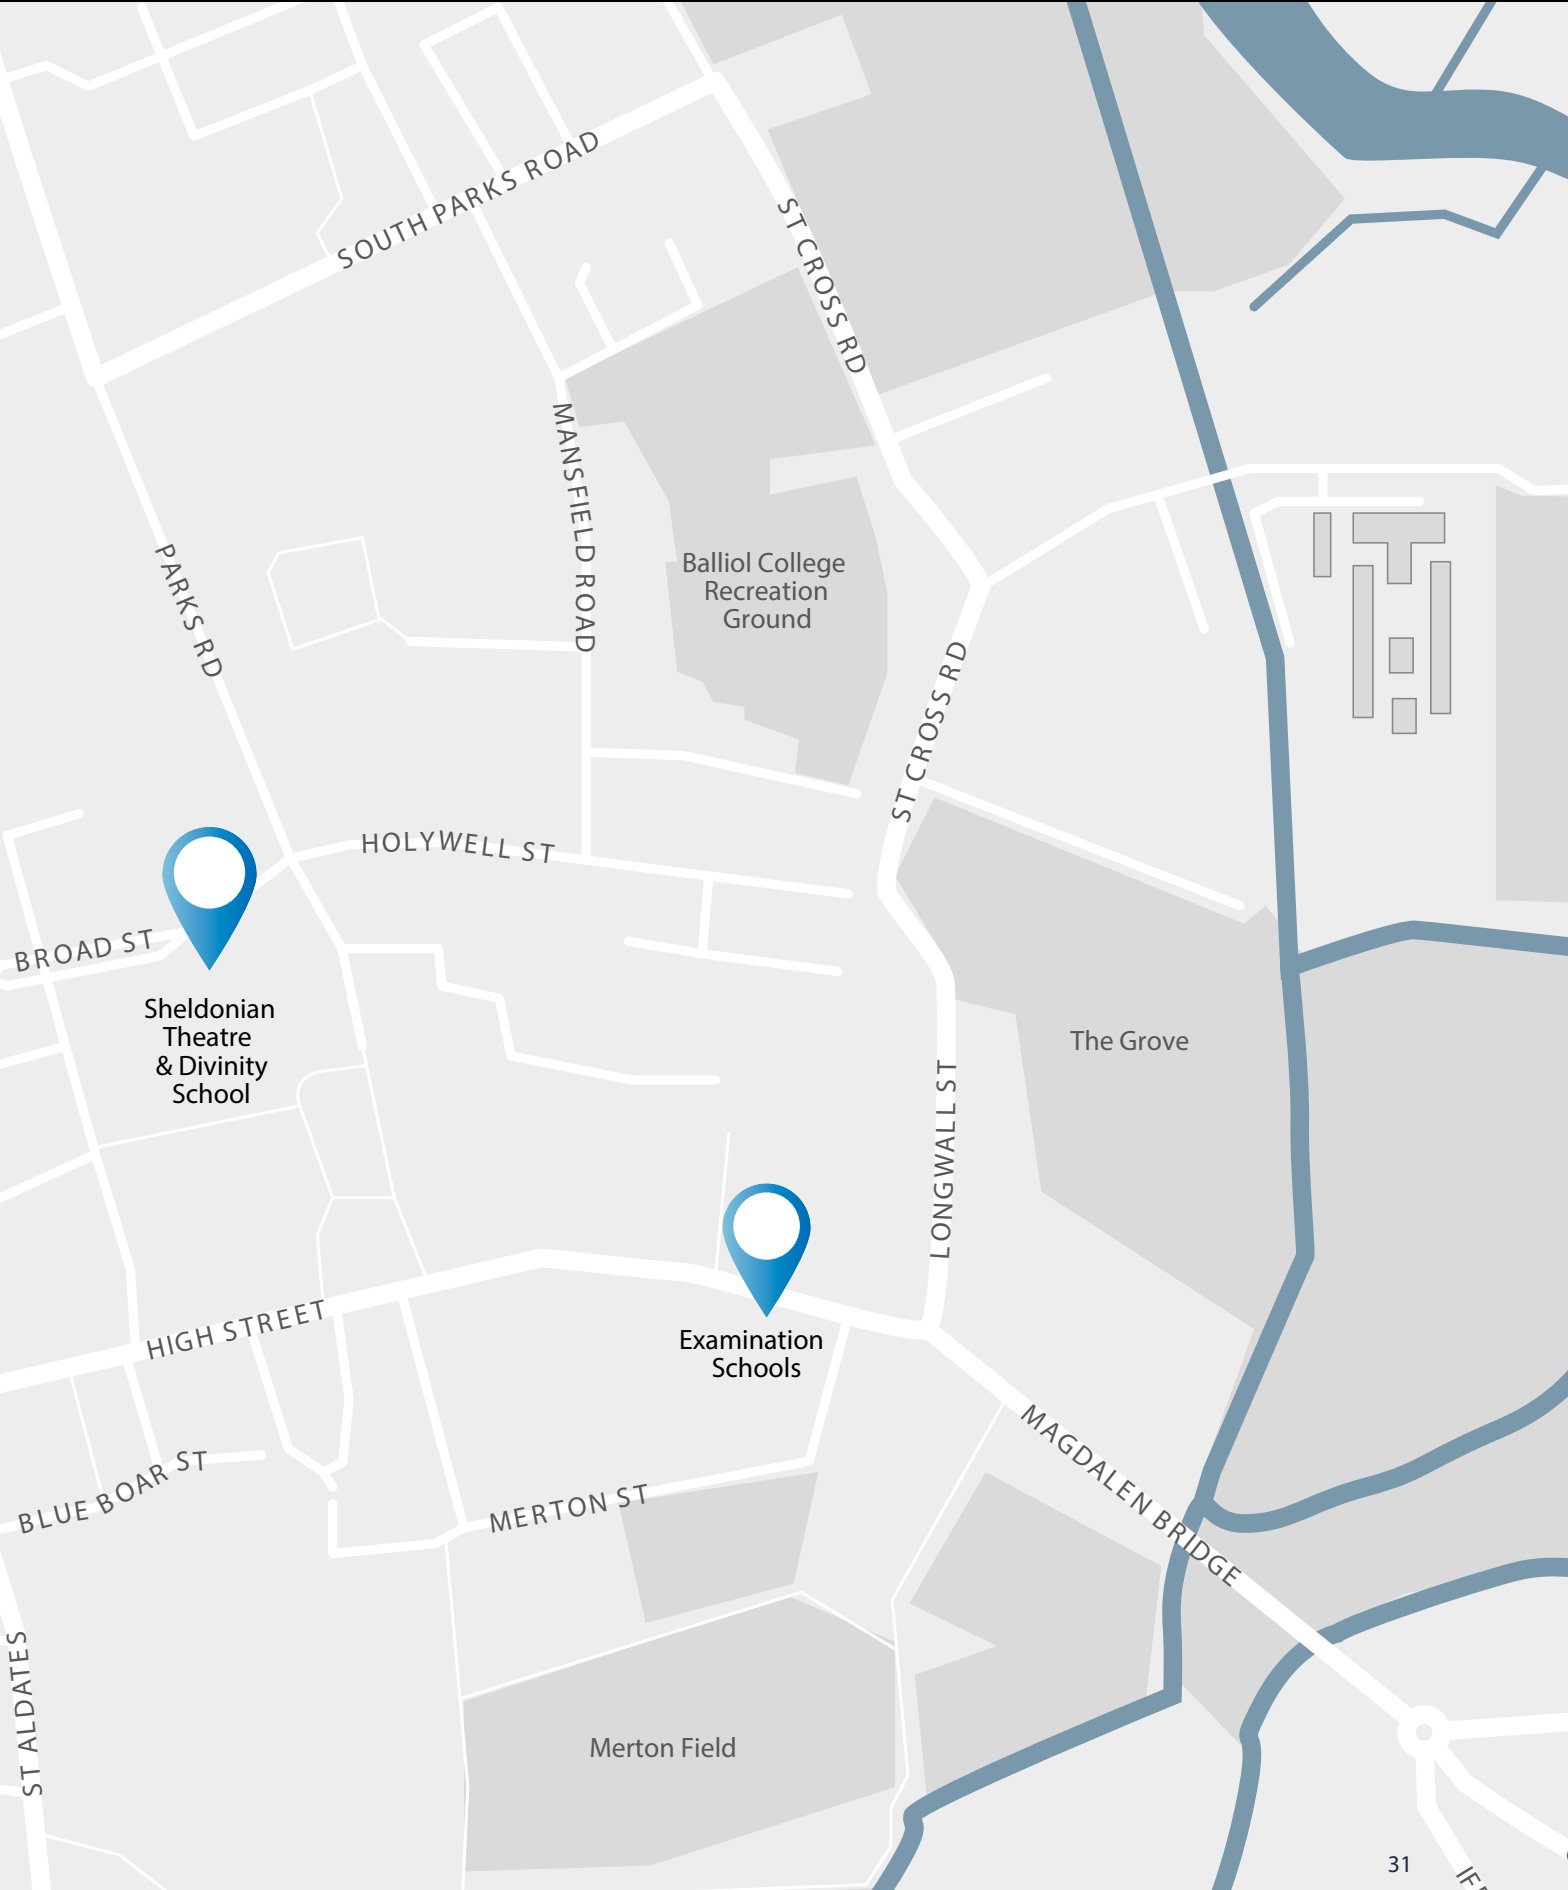

After party on Thursday 20th July 2023.

Saint Paul's, a majestic old church located on Walton Street in historic Jericho, has been a beloved gathering place for over 30 years. In 1988, it was transformed into FREUD, bringing the legendary cocktails of its London sister café to Oxford. With its hauntingly high ceilings and decadent stained glass, Saint Paul's offers a unique and memorable atmosphere that has attracted friends, families, and generations of university students alike.

Beyond ESG

Committed to creating long-term sustainability

SPEAKERS

ALASTAIR MARSH

Journalist, Bloomberg News

Alastair Marsh covers ESG and climate finance for Bloomberg News with a focus on the net zero journeys of major banks and investment firms, finance flows for the energy transition and the development of carbon markets. He previously reported on cryptocurrencies and credit markets. Marsh joined Bloomberg in 2012 from a Financial Times publication focused on emerging markets.

ALEX MONEY

Programme Director, Oxford Smith School

Alex is a Programme Director at the Smith School of Enterprise and the Environment, and concurrently CEO of Oxford Earth Observation, an early stage company focused on evaluating water risk. A former fund manager, Alex has nearly 30 years of experience across industry, academia and enterprise. He holds masters and doctoral degrees in water from the University of Oxford.

ANNE SIMPSON

Global Head of Sustainability, Franklin Templeton

Anne Simpson is Global Head of Sustainability for Franklin Templeton, reporting to the President and CEO. In this newly created role, Ms. Simpson is responsible for driving the company's strategic direction on stewardship, sustainability and ESG investment strategy globally, while fostering best practices within the firm's autonomous specialist investment managers. She serves as the firm's primary spokesperson on matters related to sustainability and participates in industry engagement initiatives and advocacy activities with policy makers and regulators.

Ms. Simpson joined Franklin Templeton in 2022, bringing 35 years of sustainable investment and academic expertise as well as extensive experience in the international regulatory and policy arena. She is a Visiting Fellow at Oxford University appointed by the Chancellor and teaches at University of California, Berkeley Haas Business School as a Lecturer in Sustainable and Impact Finance. In addition, Ms. Simpson is an advisory council member for the Official Monetary Financial Institutions Forum, a board member at Ceres, serves on the Leadership Council for the Robert F. Kennedy Center for Justice and Human Rights and on the steering committee of Climate Action 100+. She has previously served on the U.S. Securities and Exchange Commission's Investor Advisory Committee, the Public Company Accounting Oversight Boards Investor Advisory Group and the International Financial Reporting Standards Advisory Council.

Prior to joining Franklin Templeton, Ms. Simpson was with the California Public Employees Retirement System (CalPERS), one of the largest asset owners in the world, where she served as Managing Investment Director for Board Governance & Sustainability, leading the development and execution of CalPERS' award-winning Sustainable Investment Strategy across a global portfolio of US\$500 billion with 80% assets internally managed. At CalPERS, Ms. Simpson served as a member of its Investment Management Committee, which determines asset liability management, capital allocation, risk management and operations across global public equity, fixed income, private equity, private credit, real assets and infrastructure. In addition, she served as the inaugural Chair of Climate Action 100+ and its Asia Advisory Group, a global investor alliance of \$60 trillion which CalPERS convened and co-founded. Ms. Simpson also led the CalPERS investment office diversity, equity and inclusion business initiative, including the founding of 3D (Diverse Director DataSource). Prior to joining CalPERS, Ms. Simpson was a Senior Faculty Fellow and Lecturer at the Yale School of Management, Head of the Global Corporate Governance Forum at the World Bank, Executive Director of the International Corporate Governance Network and Joint Managing Director of Pensions and Investment Research Consultants (PIRC) Ltd.

In 2019, Time Magazine named Ms. Simpson as one of the 15 women leading the global fight on climate change. In 2020, she was named one of the 100 Most Influential Women in US Finance by Barron's. For 11 consecutive years from 2010-21, she has been ranked by the National Association of Corporate Directors as one of the year's 100 most influential people in the boardroom. Simpson has published several books in the field, including, most recently, "The Financial Ecosystem: The Role of Finance in Achieving Sustainability" with Satyajit Bose and Dong Guo of Columbia University (Palgrave MacMillan), and "Fair Shares: The Future of Shareholder Power and Responsibility" with Jonathan Charkham (Oxford University Press).

She graduated from Oxford University in the United Kingdom, where she studied Politics, Philosophy and Economics, received bachelor's and master's degrees and was a Slater Fellow at Wellesley College, Massachusetts.

BEN CALDECOTT

Director, Oxford Sustainable Finance Group and the Lombard Odier Associate Professor of Sustainable Finance, University of Oxford

Dr Ben Caldecott is the founding Director of the Oxford Sustainable Finance Group at the University of Oxford Smith School of Enterprise and the Environment. At the University of Oxford, he is the inaugural Lombard Odier Associate Professor and Senior Research Fellow of Sustainable Finance, the first ever endowed professorship of sustainable finance, and a Supernumerary Fellow at Oriel College, Oxford. Ben is also the founding Director and Principal Investigator of the UK Centre for Greening Finance & Investment (CGFI), established by UK Research and Innovation in 2021 as the national centre to accelerate the adoption and use of climate and environmental data and analytics by financial institutions internationally.

Ben specialises in environment, energy, and sustainability issues and works at the intersection between finance, public policy, and academe, having held senior roles in each domain. He has authored and edited a substantial number of publications related to sustainability and is an experienced media commentator and public speaker. His expertise and expert evidence have been recognised in high profile legal cases, including in the Federal Court of Australia and the High Court of England and Wales. He is a regular peer reviewer and has a number of trustee, board, and advisory panel appointments, including serving on the UK Climate Change Committee's Adaptation Committee, DBS Bank's Board Sustainability Committee, UK Export Finance's Export Guarantees Advisory Council, and as a Trustee of the Royal Society for the Protection of Birds (RSPB).

BEN MENG

Executive Vice President and Chairman of Asia Pacific, Executive Sponsor of Sustainability

Ben Meng is executive vice president, chairman of Asia Pacific, head of Global Private Equity and the executive sponsor of Sustainability for Franklin Templeton. Dr. Meng is responsible for expanding the firm's investment offerings and client reach in the Asia Pacific region, with a particular focus on leading the private equity, venture capital and other alternative asset investment capabilities.

He leads Franklin Templeton's China business, including the firm's joint ventures and Wholly Foreign Owned Enterprise. Additionally, Dr. Meng leads the Franklin Templeton Global Private Equity group and supports efforts to expand the reach of the firm's tailored solutions for the firm's institutional clients globally. Dr. Meng reports to the CEO and is a member of Franklin Templeton's Executive Committee, a small group of the company's top leaders responsible for shaping the firm's overall strategy.

Dr. Meng has more than two decades of experience working in the global finance industry across three continents, including extensive experience in Asia Pacific, as well as a strong track record for delivering results across a broad range of asset classes. He has served in top investment roles at two of the largest asset owners in the world. Previously, Dr. Meng was Chief Investment Officer for the California Public Employees Retirement System (CalPERS) and Deputy Chief Investment Officer at the State Administration of Foreign Exchange (SAFE). Most recently, he served as Director of Eight Sequoias LLC, an independent firm providing consulting services to the financial industry.

He is currently a member of the ESG Advisory Council of Novata, a company that empowers the collection, analysis, benchmarking and reporting of ESG data in private markets, as well as the Customer Advisory Council of PortageBay, an AI ESG solution that provides evidence-based sustainability analytics.

Dr. Meng holds a Master of Financial Engineering degree from the Haas School of Business at the University of California at Berkeley and a Ph.D. in Civil and Environmental Engineering from the University of California at Davis. He serves on the editorial board of the Journal of Investment Management and frequently teaches at top business schools globally such as the Haas School of Business, where he received the 2014 Cheit Award of Excellence in Teaching. He is the Citi Visiting Chair in International Business at the Schwarzman College. He is a member of the Council on Foreign Relations and the Committee of 100.

BILLY SUID

Head of Climate Risk, Barclays

Billy is Head of Climate Risk for Barclays, a function created in 2020 to support Barclays' ambition to become a net zero bank by 2050, helping to accelerate the transition to a low-carbon economy. He chairs the Transition to Net Zero working of the Bank of England Climate Financial Risk Forum.

Billy is responsible for developing Barclays' climate risk methodologies and managing climate risk in the bank's portfolio. He has led the development of BlueTrack™, Barclays' methodology for measuring financed carbon emissions and tracking them at a portfolio level against the goals of the Paris Agreement and the development of Barclays' methodology to assess the risk of the low carbon transition on its corporate lending portfolio. He also sits on the investment committee of Barclays' £500m Sustainable Impact Capital, which invests in environmentally-focused early-stage companies.

Prior to his current role, Billy was Head of Capital and Leverage Management at Barclays, responsible for managing the bank's capital position. He has had a long-standing interest in environmental issues, and led the launch of the Barclays Green Bond issuance programme in 2017, a first amongst UK banks. Since joining Barclays in 2005, Billy has held a number of roles in Markets, Portfolio Management and in the Treasury function, initially as Head of Securitisation and Asset Backed issuance. He started his career at JPMorgan, is a CFA Charterholder and graduated from ESSEC Business School in Paris.

CARINE SMITH IHENACHO

Chief Governance and Compliance Officer

Carine Smith Ihenacho is responsible for the governance and compliance area, which includes ownership and responsible investment activities, control and operational risk, compliance and legal services.

Carine Smith Ihenacho was appointed Chief Governance and Compliance Officer 6 October 2020. She joined Norges Bank Investment Management in August 2017 as Global Head of Ownership Strategies and was promoted to Chief Corporate Governance Officer on 1 January 2018.

Prior to joining Norges Bank Investment Management, Ms Ihenacho was Vice President Legal and Chief Compliance Officer in Statoil ASA. She has more than 20 years' experience as a lawyer, working in both financials and the oil and gas industry, as well as in law firms. She also has extensive board experience.

Ihenacho holds a law degree from the University of Oslo, a Master of Law from Harvard Law School and a Master of Economics from the Norwegian School of Economics (NHH).

CATE LAMB

Global Director, Water Security

During her tenure as Global Director, Water Security at CDP, Cate has built the world's largest coalition of non-state actors working to deliver a water secure future. Today, 680 financial institutions controlling \$130trillion in assets use Cates program to gather water-related data from over 7,000 of the world's most impactful companies. The data disclosed provides unique insights into the water-related risks, opportunities and impacts these companies have both today and into the future. This data is a public good and it, alongside the annual corporate water action benchmarks, are distributed throughout the economy to incentivise action and enable better decisions that drive the reallocation of capital towards those businesses valuing water and away from those that don't.

Recently, Cate has spearheaded CDP's work to accelerate the transition to a sustainable economy through her work to increase the water-related transparency and associated due diligence throughout private finance. Having developed the world's first portfolio water impacts reporting framework aimed at banks, asset managers, asset owners and insurance companies, she is now leading the development of a Water Action Pathway for Finance alongside OECD, WFN and UNEP FI.

In addition to her time at CDP, Cate is also a strategic advisor to the UNFCCCC's High Level Climate Champions, the Co-Chair of the Science Based Target Network Council, a knowledge partner of the TNFD, a founder of the Fair Water Footprints Coalition and one of Thompson Reuters 2023 Trailblazing Women working on Climate.

CATHERINE HOWARTH OBE

Chief Executive, ShareAction

Catherine Howarth OBE joined ShareAction as Chief Executive in 2008. ShareAction's mission is to define the highest standards of responsible investment and to promote those standards across the world. Working closely with investors in many jurisdictions, ShareAction drives accelerated action by listed companies on climate change, loss of biodiversity, workforce practices and public health.

Catherine was recognised by the World Economic Forum as a Young Global Leader in 2014 and in 2022 was awarded an OBE for 'services to sustainability'. She was appointed in late 2023 to the FCA's advisory committee on ESG. She is a member of the HM Treasury's asset management taskforce, where she co-chaired a programme of work on investor stewardship in 2020. From 2015 to 2022, she served on the board and investment committee of the Scott Trust, owner of The Guardian Media Group.

CATRIONA GLASCOTT

Lawyer, Accountable Finance, ClientEarth

Catriona is part of ClientEarth's Accountable Finance team, working on a broad range of legal strategies and interventions to push for a more sustainable financial system. Catriona focuses on the bond market, to push for better integration of climate-related risk in investment decision-making and to drive greater ambition and accountability as debt instruments evolve.

Before joining ClientEarth, Catriona had over eight years experience as a Financial Services lawyer, including four years at a leading London law firm and four years in Enforcement at the Financial Conduct Authority. She is also on the BBC Expert Women programme and has worked in the UK Houses of Parliament and US Congress.

CRAIG MCKENZIE

Head of Sustainability, Multi-Asset & Investment Solutions, Abrdn

Investor focused on driving capital for climate mitigation and natural capital impact. Previously head of sustainable investing teams at three asset management firms; board of IIGCC, UKSIF; advisory committees FTSE Russell, GRI, PRI.

Also, Senior Lecturer, University of Edinburgh Business School and founder director of Centre for Business Climate Change and Sustainability.

DARIAN MCBAIN

Senior Associate, Public and Third Sector Academy for Sustainable Finance (P3SA), University of Oxford

Darian McBain is a globally experienced Chief Sustainability Officer (CSO), advisor and board member. She was named a UN SDG Pioneer in 2021, a Fast Company Most Creative People in Business 2020, as one of Asia’s Top Sustainability Superwomen in 2020 as well as many other industry awards.

Darian is the CEO and Founder of Outsourced Chief Sustainability Officer Asia (OCSO Asia). Darian was the inaugural Chief Sustainability Officer for the Monetary Authority of Singapore and the first CSO for a central bank globally. Prior to this, she was the Global Director of Corporate Affairs & Sustainability for Thai Union, a multi-billion dollar listed FMCG company operating globally and headquartered in Asia. Darian is a Visiting Professor in Practice with the London School of Economics and Political Science, a Senior Associate with the University of Oxford, Public and Third Sector Academy for Sustainable Finance, and an adjunct Senior Lecturer with Integrated Sustainability Analysis at the University of Sydney.

DESIREE FIXLER

Chief Content Officer, Attain

Desiree is the Chief Content Officer at Attain, an EdTech company, providing immersive, game-based learning for the sustainable finance market. She has over 25 years of experience in sustainable finance and global markets, having held senior roles at JP Morgan, Deutsche Bank and Zais Group.

Desiree was Group Sustainability Officer at DWS Group, when she exposed what she considered to be extensive greenwashing. She highlighted the discrepancies between the firm’s public ESG claims and its internal statements and actions and called for greater transparency and accountability in ESG investing.

Now as a trusted advisor to regulators and NGOs, she is at the forefront of global efforts to tackle greenwashing and raise the bar in the practice of sustainable finance.

ELLEN QUIGLEY

Principal Research Associate; Special Adviser to the CFO

Dr Ellen Quigley is a Principal Research Associate, the Co-Director of Finance for Environmental and Social Systemic Change, and the Special Adviser (Responsible Investment) to the Chief Financial Officer, all at the University of Cambridge. Her work centres on the mitigation of climate change and inequality through the investment policies and practices of institutional investors.

ERIC LIM

Chief Sustainability Officer, UOB

Mr Eric Lim is Managing Director and the Chief Sustainability Officer at United Overseas Bank Limited (UOB). His role is to drive UOB's sustainability strategy and objectives of helping businesses and individuals transition to a sustainable future and fostering social and environmental well-being among colleagues and communities.

Eric was also the Head of Group Finance from 2013 to 2022, where he was responsible for the Bank's core finance functions spanning financial strategy, capital management, regulatory and financial reporting, tax management, business finance and performance management.

Eric holds positions in key UOB management committees, including Chairperson of the Group Sustainability Committee. He is also a member of the Management Committee and holds directorships in UOB affiliated companies.

Prior to joining UOB, Eric was Managing Director and Head of Wholesale Banking Finance, Singapore and Southeast Asia for Standard Chartered Bank, responsible for driving the strategic partnership between the wholesale business and finance teams. Eric began his career with GE Capital, during which he lived and worked in more than 20 countries.

FELIX PRESTON

Director - Research & Programs, Climate Arc

Felix Preston leads on research and data for Climate Arc, an organization working to unlock capital flows to meet global climate goals.

He joined Arc from Generation Investment Management, where he was Director, Sustainability Impact and Research.

Felix was previously Senior Research Fellow at Chatham House, focusing on sustainable transitions in industrial, energy and food systems.

GENEVIEVE JOAN SOH

Head of Platforms & Ecosystems

Genevieve Soh is Head of Platforms and Ecosystems, responsible for user experience across the exchanges several platforms. Prior to this, she was a Principal with the Boston Consulting Group (BCG), and a Venture Architect Director at BCG Digital Ventures where she built go-to-market strategies, innovation and economic models for leading MNCs.

Genevieve holds an MBA from the Northwestern University – Kellogg School of Management and a Bachelor's degree in Accounting and Finance from Singapore Management University. Genevieve is also passionate about marine wildlife, for which she has learnt to scuba dive.

GERALDINE LEEGWATER

Chief Investment Management PGGM

Geraldine Leegwater is since November 2020 Chief Investment Management and member of the Executive Committee of the Dutch pension fund service provider PGGM. Before Geraldine was Member of the Board of Trustees and chairman of the Investment Committee of ABP.

Between 2004 and 2018, Geraldine was first Chief Investment Officer of ABN AMRO Pensioenfond and later Chief Executive Officer of ABN AMRO Pensioenfond. She also served as a member of the Supervisory investment committee of the Dutch Central Bank and is an academic director for the executive education on pension- and investment management at the ESAA/ Erasmus University.

In the past, Geraldine was a member of several investment committees of Dutch Pension Funds.

Geraldine has a degree in Economics and Eastern European Studies and is a CFA and CAIA charter holder and certified EFFAS ESG analyst (1971)."

GIREESH SHRIMALI

Head of Transition Finance Research, Oxford University

Gireesh Shrimali is the Head of Transition Finance Research at Oxford University. Previously, he was a Research Fellow at Stanford University and a Director at Climate Policy Initiative. He has taught at Johns Hopkins University as well as the Indian School of Business. His research is on the catalytic role of finance in getting to the 2C climate target.

He also focuses on ESG issues, such as climate risk and net zero transitions. He holds a PhD from Stanford University, an MS from the University of Minnesota, and a BTech from the Indian Institute of Technology. Prior to his academic career, he has over nine years of industry experience.

DR JAKOB THOMÄ

Project Director, Inevitable Policy Response

Dr Jakob Thomä is one of the leading global experts on sustainable finance and long-term risks, and entrepreneur with a track record of incubating commercial and non-commercial sustainability solutions.

He co-founded the 2nd Investing Initiative entities in New York and Theia Finance Labs (formerly 2DII Germany) where he now serves as Research Director. Jakob is Project Director – Inevitable Policy Response and Professor in Practice at SOAS, University of London.

His first book “Der Kill Score: Auf der Spur unseres ökologischen und sozialen Fußabdruck” is a true crime narrative about the 500 million victims of our non-sustainable consumption, investment, and production choices and the killers behind these victims.

JENN-HUI TAN

Global Head of Stewardship & Sustainable Investing, Fidelity International

Jenn leads Fidelity’s dedicated team of more than 40 stewardship and sustainable investing analysts and is responsible for providing external and internal leadership on Fidelity’s sustainable investing activities, including strategy and policies on ESG integration, engagement, voting, product and sustainability regulation. He chairs the firm’s Sustainable Investing Operating Committee and is a member of its Investment Management Leadership Team and Investment Management Committee. He is a member of the Board of Governors of the International Corporate Governance Network and the Advisory Board of the Finance for Biodiversity Foundation.

Jenn joined Fidelity International in 2007 from Norton Rose Fulbright, where he was a corporate finance lawyer advising on capital market and M&A transactions. He holds an LLB Law degree from the University of Durham.

JENNI RAMOS

Lawyer – Corporate/Finance and Biodiversity, Commonwealth Climate and Law Initiative

Jenni Ramos is a UK-qualified lawyer focusing on the corporate and financial law implications of biodiversity loss and ecosystem risk at the Commonwealth Climate and Law Initiative, particularly in relation to directors’ and investors’ duties and corporate governance. Jenni is the co-author of the CCLI’s December 2022 report ‘Biodiversity Risk: Legal Implications for Companies and their Directors’.

Before joining the CCLI, Jenni was Head of Content Development at The Chancery Lane Project where she helped to shape the rapid expansion of this groundbreaking initiative to support lawyers to use contractual clauses to tackle climate change. This included editorial work, leading workshops and writing about legal issues at the intersection of climate change and law. Having qualified at Allen & Overy in London, Jenni practised corporate and commercial law in Cambridge before a variety of non-practising positions, including negotiating university medical research contracts and compliance for an international disability NGO.

DR JENNIFER WILLETTS
Head of Sustainability Data and Research - Global, Franklin Templeton

Dr Jennifer Willetts leads Franklin Templeton’s Sustainability Data and Research workstreams, focusing on the sourcing, integration, and analysis of sustainability related data as part of the firm’s Global Sustainability Strategy Team. Dr Willetts works collaboratively with the firm’s autonomous specialist investment managers to provide guidance and insight on the use of sustainability related data; in addition to researching and developing frameworks to support the identification of risks, impacts, and opportunities.

Dr Willetts has over 8 years of experience in the asset management industry, having started her career as an equity trader and quantitative analyst on the European Trading Desk at Franklin Templeton. She obtained her PhD in Mathematical Physics in 2015 and holds a first-class Master of Mathematics, BSc from the University of Leeds.

JESSICA SMITH
Nature Lead, UNEP Finance Initiative

Jessica Smith leads the Nature team at the UNEP Finance Initiative, promoting leadership on nature and nature-based solution from the banking, insurance and investment industries. She is a strategic and technical advisor on nature and finance and has led in setting up major initiatives such as the Taskforce on Nature-related Financial Disclosures (TNFD) and on private sector engagement into the CBD Conference of the Parties that led to the Kunming-Montreal Global Biodiversity Framework. Jessica currently leads an applied research project with the Biodiversity Credits Alliance and other partners to promote investment in Indigenous Peoples and Local Communities-managed land- and seascapes and is otherwise active in thought-leadership at the forefront of nature and finance. For the previous 7 years she directed a consultancy firm undertaking environmental finance project development and evaluation, and leading secretariats for the Equator Principles Association (environmental and social risk in Project Finance for 100+ financial institutions) and the Cross-Sector Biodiversity Initiative (applying IFC performance standard 6 on biodiversity in oil & gas, mining, and finance). She has worked extensively to mobilise and evaluate environmental finance, globally and across Africa.

JO RAVEN
Director of Thematic Research and Corporate Innovation, FAIRR

Jo leads the Thematic Research and Corporate Innovation team and has oversight of FAIRR’s engagement efforts. She provides strategic direction to the development of collaborative engagements and the assessment of companies across the food value chain including food technology start-ups. Jo also works closely with investor members to develop and integrate sustainable food systems as a key priority.

Prior to this, she was an Assistant-Manager at KPMG UK in their Investment Management and Funds Team, advising investment managers on risk management as well as working cross-functionally with the Sustainability Team on climate change risk for private equity firms. Jo began her career with Alliance Trust as an analyst.

Jo holds a first-class degree in BA (Hons) Geography from the University of Leeds and an MSc in Development Studies at SOAS, for which she was awarded a Distinction. She passed CFA Level 1 and holds the Investment Management Certificate (IMC).

JOHAN FLORÉN
Chief ESG & Communication Officer, AP7

Johan Florén joined AP7 in 2009. AP7, Sjunde AP-fonden (Seventh AP Fund), is the default alternative within the Swedish premium pension system with assets of 90 billion USD and more than five million savers. Johan is a member of the Taskforce on Nature-related Financial Disclosures.

Previously he has been chairman of Sweden’s sustainable investment forum (SWESIF) and of Amnesty Business Group in Sweden. Alongside work, Johan is a PhD student at Lund University.

He holds several degrees, including philosophy, political science and marketing from Stockholm and Uppsala universities.

JULJA PRODANI

Senior Policy Advisor, Financial Stability division of de Nederlandsche Bank (DNB)

Julja is a Senior Policy Advisor at the Financial Stability division of de Nederlandsche Bank (DNB). Before joining DNB, she worked at PricewaterhouseCoopers as an advisor to banks on prudential regulation and then as an economic researcher. At DNB, she started as a banking macroprudential policy specialist before becoming involved in the topic of nature-related financial risks.

She is now leading a project on nature-related scenario analyses for the Netherlands, and co-chairing a Eurosystem initiative on the topic of nature-related risks. She is also contributing to international work on the topic of nature, such as the NGFS Taskforce on Nature. Julja holds a Master's degree in Business Economics from the University of Amsterdam and a Financial Risk Manager (FRM) certificate from the Global Association of Risk Professionals.

KAREN ELLIS

Chief Economist, WWF

Karen Ellis is Chief Economist at WWF-UK, and a member of WWF's Global Finance Practice Leadership Team, and oversees a cross-organisational programme of work focusing on how to transform the financial and economic system for sustainability. She represents WWF on the UK Government's Transition Plan Taskforce, and on the Green Technical Advisory Group which advises the UK Government on the green taxonomy. She is an economist with 25 years' experience in the public and private sectors. Karen previously worked for the UK Government at HM Treasury, and at the Department for International Development, with a focus on international economics, private sector development, growth, investment, financial regulation and macroeconomic policy issues. Karen also worked at the Overseas Development Institute, where she led the Private Sector and Markets Programme, focusing on the role of business in achieving sustainable development. Karen started her career as a consultant for London Economics, advising on financial regulatory issues for private sector clients.

KEITH TUFFLEY

Global Co-Head of Citi's Sustainability & Corporate Transitions Group

In this role, Keith leads Citi's sustainability engagement with its corporate clients, supporting them with strategic and M&A advice, financing and capital markets solutions, and investor engagement, as they transition their businesses towards more sustainable models.

Prior to Citi, Keith was the CEO of The B Team, an NGO comprised of a group of 24 CEO's of global companies, leading entrepreneurs, and civil society leaders to drive a better way of doing business. Keith was an active participant in the Paris Climate Agreement process and the launch of the UN Sustainable Development Goals (SDGs), and led the creation of the first "net-zero companies" in 2015. He was a Founding Board Member of the We Mean Business climate coalition.

Keith was the Head of Investment Banking, a Partner, and Board Member of Goldman Sachs in Australia. Prior to joining Goldman Sachs, he was a Managing Director at UBS. Keith commenced his career as a commercial lawyer for Allen Allen & Hemsley.

Keith is the Founder of impact investing company, NEUW Ventures SA; a Director the Villars Institute; a founder of the Climate Leaders Coalition; a Director of the EO Wilson Biodiversity Foundation; a Governor of WWF Australia; a member of the Stakeholder Committee of Michelin; and a member of the Strategic Advisory Group of Business for Nature.

He holds the following qualifications: Bachelor of Economics; Bachelor of Laws and Master of Laws (Sydney University); Advanced Management Program (INSEAD); and Master of Studies in Sustainability Leadership (Cambridge University, UK). He was elected as an International Fellow of the Explorers Club in 2022.

LINDSEY STEWART

Director of Investment Stewardship, Morningstar

Lindsey Stewart is the director of investment stewardship research on Morningstar’s global manager research team.

Lindsey analyses asset managers’ sustainable investing policies and practices. He focuses on their corporate engagement, proxy voting, and public policy engagement activities on key ESG topics, including climate change, biodiversity, workforce and supply chain issues, gender and racial equity, board composition and diversity, and shareholder rights.

Lindsey joined Morningstar in 2022 from the Financial Reporting Council where he was head of stakeholder engagement. Prior to that, his career spans over 20 years in investor relations consulting, equity research, and financial reporting and regulation at KPMG and Makinson Cowell. Lindsey qualified as a Chartered Global Management Accountant with AICPA-CIMA, and he also holds the CFA® Charterholder designation.

LISE PRETORIUS

Chief Sustainability Analysis Officer, Matter

Lise is Head of Sustainability Analysis at Matter, a Danish fintech company specializing in sustainable investments. Previously, Lise was Vice President at WWF’s Asia Sustainable Finance team in Singapore where she supported financial institutions across the region with research and training on climate, biodiversity and water, and led stakeholder relations for multi-stakeholder platform Asia Sustainable Finance Initiative.

Prior to that, her work spanned corporate sustainability consulting, research, and financial journalism across South Africa, Bhutan, and the UK. She is responsible for developing all of Matter’s methods and frameworks, and the data solutions she helps design are currently used to analyse EUR +700bn in AUM by investors across Asia, Europe and North America. She also serves as non-executive director for South African shareholder activism organization Just Share. Lise holds a BComm Honours in Economics from the University of Cape Town and an MSc in Environmental Economics from the London School of Economics

LUCY FITZGEORGE-PARKER

Editor, Responsible Investor

Lucy Fitzgeorge-Parker joined Responsible Investor as editor in 2022 from Euromoney magazine, where she was ESG editor. Prior to that, she was Euromoney’s editor for Central and Eastern Europe and contributing editor at GlobalCapital. She has covered most aspects of banking and capital markets since switching to journalism from investment banking in 2003.

LUKE SUSSAMS

Head of ESG and Sustainable Finance, EMEA, Jefferies

Luke Sussams leads ESG Strategy for EMEA at Jefferies, a US investment bank.

Luke has been a sell-side ESG analyst for 6+ years.

Prior to that, Luke spent 6 years researching the energy transition at Carbon Tracker, the think-tank that coined the term “stranded assets”.

MADELENA MOHAMED

Sustainability Director, Bank Negara Malaysia

Madelena oversees the strategic direction and execution of the Bank’s climate change agenda. She currently co-chairs the NGFS Task Force on Capacity Building and Training. She has experience in various aspects of financial stability including strategic, macro- and micro-prudential policies, both for the conventional and Islamic financial systems.

She was responsible for financial stability assessment and crisis management policies in the Bank including resolution strategies during the Asian financial crisis. She spearheaded the formation of the Bank's Financial Stability Executive Committee and was the key responsible person for the inaugural Financial Sector Assessment Programme for Malaysia in 2012.

She represented the Bank in several committees including the Basel Committee Policy Development Group, IAIS Financial Stability and Technical Committee, and IFSB Technical Committee. She graduated in economics, accounting and finance from the London School of Economics and is a Chartered Financial Analyst.

MARK MANNING

Strategic Policy Advisor on Sustainable Finance at the FCA

In this role, he is responsible for several initiatives at the core of the FCA's ESG Strategy. These include work on climate and sustainability reporting and assurance, transition planning and sustainable investment labelling and disclosure. Mark is a leading member of IOSCO's Sustainable Finance Taskforce, as well as the UK Transition Plan Taskforce Delivery Group, and the ISSB's Jurisdictional Working Group.

Prior to joining the FCA in 2018, Mark spent fifteen years as a central banker with the Bank of England (BoE) and the Reserve Bank of Australia (RBA). He also spent several years as a fixed income and currency fund manager with Kleinwort Benson Investment Management and Goldman Sachs Asset Management. Mark holds Master's degrees in Economics and Finance, from University College London and London Business School, respectively.

MARTIJN REGELINK

Senior Financial Economist, World Bank

Martijn Regelink is a Senior Financial Economist in the World Bank's Finance, Competitiveness, and Innovation Global Practice. He leads the World Bank's advisory services on climate and nature risks for the financial sector, providing policy advice to regulators and supervisors around the world.

Currently, he is working on projects in South East Asia; Africa and Latin America and leads engagements on climate risks and opportunities in the Financial Sector Assessment Program. He also represents the Bank in NGFS and FSB working groups on climate risk. Previously, Martijn worked as a strategy advisor to the board of the Dutch central bank (DNB), leading DNB's first program on climate risks. He holds Master's degrees from the University of Groningen in Economics and International Relations.

MATTHEW GINGELL

General Counsel, The Chancery Lane Project

Matt has been a solicitor for 16 years (12 in-house) and is currently the General Counsel of The Oxygen House Group.

He is widely recognised as an innovator who is helping shape the legal profession as a force for good. Speaking regularly on ESG and sustainability matters he founded the The Chancery Lane Project in 2019. Matt is the author of the climate contracts doctrine: ground level commercial contracts creating global environmental outcomes.

He has been embedding ESG objectives into investments since 2014 and is an ESG Advisor to the QantX fund.

Matt is an External Associate of Exeter University's Centre for Environmental Law and a Fellow of the Institute of Corporate Responsibility and Sustainability.

He also holds voluntary positions as a trustee of The Oxygen House Foundation, The Dixon Foundation and The Chancery Lane Project.

NATHAN FABIAN

Chief Responsible Investment Officer

Nathan Fabian is Chief Responsible Investment and Signatories Relations Officer at the United Nations-supported Principles for Responsible Investment. The PRI supports over 5000 institutional investors globally to incorporate Environmental, Social and Governance factors into their investment activities. He has been with the PRI for five years.

From November 2020 – October 2022, Nathan was Chair of the EU Platform on Sustainable Finance, a public and private sector expert panel to develop sustainable finance policies and tools in Europe, including the EU Taxonomy, Nathan previously served as the Rapporteur for the Taxonomy Group of the EU Technical Expert Group on Sustainable Finance.

He was an Observer on the EU High Level Expert Group on Sustainable Finance and part of the Secretariat for the UK Green Finance Taskforce.

These roles are part of twenty years of professional experience in sustainable finance in government policy, investment research and ratings on companies, and the development of investment processes and tools.

NIKKI GWILLIAM-BEEHAREE

Investor Engagement Strategic Lead, World Benchmarking Alliance

Nikki is leading the Investor engagement strategy at the World Benchmarking Alliance. In this role Nikki works with asset managers, asset owners and key actors across the investment industry to accelerate corporate accountability and sustainable systems transformation. Previously she worked as the Director of ESG Research at Invesco where she partnered with fund managers and investment analysts on ESG integration and corporate engagement across regions and asset classes.

Nikki started her career as an ESG analyst and before Invesco, she was Director of Research at an ESG rating agency, Vigeo Eiris (now part of Moody's). Nikki holds an MA in Human Rights from the University of Sussex, a BA in Economics and Social Anthropology from the University of Manchester, and has attained the Chartered Institute for Securities & Investments (CISI) certificate on the 'Introduction to Securities and Investment'.

PETER DUNBAR

Head of Private Equity, PRI

Peter Dunbar is a professional with over 20 years of experience in the asset management industry.

As the Head of Private Equity at the United Nations-backed Principles for Responsible Investment (UNPRI), he leads its work in driving responsible investment and ESG practices in the private equity and venture capital space.

Before joining UNPRI, he spent over a decade working within the emerging markets private equity team of Capital Group, one of the world's largest investment management firms, giving him a unique perspective on the industry.

PROFESSOR RACHEL KYTE

Dean Emerita, The Fletcher School at Tufts University, Co-Chair, Voluntary Carbon Markets Integrity Initiative

Rachel Kyte is Dean Emerita of The Fletcher School at Tufts University and a professor of practice. Kyte was the first woman to lead the United States' oldest graduate-only school of global affairs.

Kyte served as special representative of the UN secretary-general and chief executive officer of Sustainable Development for All (SEforALL). She previously was the World Bank Group vice president and special envoy for climate change, leading action on climate finance in the run-up to the Paris Agreement. Kyte served as an advisor to the UN secretary-general on climate action and the crisis response to the invasion of Ukraine, chaired the Rwandan Green Fund (FONERWA) and advised the UK government on COP26.

Kyte is currently co-chair of the Voluntary Carbon Markets Integrity Initiative (VCMI) working to build high integrity voluntary carbon markets, member of the board Private Infrastructure

Development Group with responsibility for ESG, and a member of the G20 Expert Group on MDB reform, appointed by the Government of India. Kyte is an advisor to General Atlantic's Beyond Net Zero fund and a member of the board of the Carbon Policy Initiative. She is an advisor to Mahindra University's Center for Sustainable Development and plays a leadership role at the World Economic Forum on trade, climate, energy and minerals. Kyte is an advisor to AIIB, JBIC and served as a member of IDB-Invest's Blue Ribbon Commission.

Kyte regularly speaks, lectures and writes on issues of mobilization of finance for climate action, energy transitions and climate diplomacy. She has been recognized for her leadership on both sides of the Atlantic and was made a Companion of St Michael and St George (CMG) in the 2020 New Years Honors.

RAY DHIRANI

Head of Impact Management, Tribe Impact Capital

Ray is head of impact management at Tribe Impact Capital. Ray co-leads Tribe's impact management proposition alongside Chief Impact Officer, Amy Clarke. He is also responsible for the impact management of Tribe's single line securities, net zero commitments, whilst overseeing fund engagement activities.

Prior to Tribe, Ray was head of sustainable finance at WWF UK, where he worked across thematic and policy areas covering climate change and wider environmental themes including extractives, food systems and deforestation, as well as conservation and finance sector data.

Before WWF, Ray worked in the global markets division of Merrill Lynch in New York. He holds a BSc. in Economics from the Wharton School at the University of Pennsylvania and an MSc. in Environment & Development from the London School of Economics.

RHYS OWEN

Research Director, BlueTech Research

Rhys is the Research Director at BlueTech Research, an independent water technology market intelligence firm which helps water utilities, technology providers and global corporations solve their water-related problems.

Based in Oxford, UK, he was previously deputy editor at Global Water Intelligence magazine where helped set up new overseas offices in Singapore and Austin, Texas, as well as founding desaldata.com – an ambitious online project to catalogue and track all of the world's desalination plants.

With a long-held interest in technology, he has previously worked in the marketing division for a cyber security specialist, as well for the Sunday Times UK newspaper, where he managed the paper's Tech Track 100 league table of the fastest-growing UK tech firms.

Rhys first became interested in the impact of water scarcity issues while travelling through the Middle East. Living in Manila for two years provided a vivid education on what a lack of access to water and sanitation looks like, and the contrasting ways in which the water crisis is being tackled by the interplay of technology, grassroots initiatives and international finance.

Rhys has also contributed to publications such as Water Environment Federation's World Water magazine and Endeavor Business Media's Water World and has presented at several international water events.

RICHARD BARKER

Member, International Sustainability Standards Board

Richard Barker was appointed as a full-time member of the International Sustainability Standards Board (ISSB) in June 2022, effective 8 July 2022.

Before joining the ISSB, he served as deputy dean and professor of accounting at Saïd Business School, University of Oxford, UK. In this capacity, he led Oxford Saïd's sustainable business initiatives.

He has published a wide range of academic research papers on accounting and sustainability disclosures. He has chaired the expert panel of Accounting for Sustainability (A4S) and served as a member of several committees and bodies focused on corporate

reporting in the UK and Europe, including the UK Corporate Reporting Council (UK accounting standard-setter), the Financial Reporting Advisory Board and the European Accounting Association's Accounting Standards Committee.

Professor Barker served as a research fellow at the International Accounting Standards Board from 2001 to 2007.

He has a Bachelor's degree in history and economics from University of Oxford and a PhD from University of Cambridge, UK.

ROB BAUER

Professor of Finance, Maastricht University

Professor of Finance (chair: Institutional Investors) and holder of the Elverding Chair on Sustainable Business, Culture and Corporate Regulation at Maastricht University School of Business and Economics in The Netherlands. His academic research is focused on institutional investments (focus on pension funds), sustainable finance, responsible investing, shareholder activism and corporate governance. Rob is also Co-Founder and Director of the European Centre for Sustainable Finance (ECCE) at Maastricht University, Emeritus Executive Director of the International Centre for Pension Management (ICPM) in Toronto, and currently ICPM's Associate Director of Education, Co-founder of GRESB (real estate benchmarking company) and Co-Chair of the Global Research Alliance on Sustainable Finance and Investment (GRASFI). Rob also advises and supports institutional investors on topics related to strategic investments.

ROBERT G. ECCLES

Visiting Professor of Management Practice, Saïd Business School, University of Oxford

Robert G. Eccles is a leading authority on how companies and investors can create sustainable strategies through the integration of environmental, social, and governance (ESG) factors in resource allocation decisions. The focus of his work is on how the capital markets can contribute to ensuring a sustainable society for generations to come. Currently Eccles is a Visiting Professor of Management Practice at the Saïd Business School, University of Oxford where he is engaged in research projects focused on corporate purpose, corporate reporting, engagement and stewardship, and private equity.

He was a Professor at Harvard Business School and received tenure in 1989. Eccles is the first Chair of KKR's "Sustainability Expert Advisory Council." He was the founding Chairman of the Sustainability Accounting Standards Board and was one of the founders of the International Integrated Reporting Council. Eccles received an S.B. in Mathematics and an S.B. in Humanities and Science from the Massachusetts Institute of Technology and an A.M. and Ph.D. in Sociology from Harvard University.

ROBIN MILLINGTON

CEO, Planet Tracker

Robin brings extensive experience of working on global issues requiring transformative change across the climate, land use and food sectors before helping found Planet Tracker in 2018. Planet Tracker is a non-profit financial think tank which is working to embed the value of nature into global capital markets to ensure sustainability of our environment and of the businesses and products dependent upon natural capital.

She has wide senior management experience in philanthropy and industry, having worked for many years with the European Climate Foundation and headed organisations including the Centre for European Policy Studies and Wetlands International. Robin currently sits on the Capitals Coalition Board as well as numerous advisory groups within the Natural Capital and ESG space.

She began her career in the IT industry, has an MBA from INSEAD and did her undergraduate degree at Stanford University.

SABINE MAUDERER

Member of the Executive Board of the Deutsche Bundesbank

Dr Sabine Mauderer has been Member of the Executive Board of the Deutsche Bundesbank since September 2018. She is responsible for the Directorates Human Resources, Procurement and Markets, which includes the implementation of monetary policy. In this capacity, she is currently Vice-Chair of the “Central banks and Supervisors Network for Greening the Financial System (NGFS)”, before becoming Chair of the network in the beginning of 2024. Additionally, she is a member of the Exchange Experts Commission.

Prior to her current responsibilities, she held several senior positions at the KfW Banking group and worked as a senior adviser at the Federal Ministry of Finance and at the German Embassy in Washington.

Sabine Mauderer was born in Schleswig in 1970. She studied law in Germany and Spain, holds a PhD by the Osnabrück University and an Executive MBA by the ESSEC & Mannheim Business School.

SARAH BARKER

Partner, Head of Climate & Sustainability Risk Governance, MinterEllison

Sarah Barker leads the climate and sustainability risk governance team at the Asia-Pacific’s largest commercial law firm, MinterEllison. She has more than two decades’ experience as a corporate lawyer, and is regarded as one of the world’s foremost experts on climate change governance, finance and liability risks.

In addition to a roster of large ASX-, NYSE- and LSE-listed clients across the energy and resources, banking, financial services, industrial and retail sectors, Sarah’s expertise has been called upon by institutions from the Bank of England to UN Environment Programme Finance Initiative. She brings the practical perspective as an experienced non-executive director in the financial services sector, having recently completed two terms on the board of one of Australia’s largest pension funds.

Sarah is a non-executive director of the Commonwealth Climate & Law Initiative, sits on the SteerCo of the Australian Chapter of the international Climate Governance Initiative, and on the Australian Accounting Standards Board’s Sustainability Reporting Advisory Committee. She teaches the Cambridge Institute for Sustainability Leadership’s non-executive directors’ programme, is an academic visitor at Oxford University’s Smith School, and is Co-Chair of the World Economic Forum’s Climate Governance Community of Experts.

SCARLETT BENSON

Beyond Value Chain Mitigation Lead, Food and Land Use Coalition

Scarlett leads the Science Based Targets initiative’s work on Beyond Value Chain Mitigation, is the Director of Standards of the Food and Land Use Coalition and sits on the Steering Committee of the Science Based Targets Network Land Hub.

She has co-authored a number of flagship publications on carbon markets, nature-based solutions and the transformation of food and land use systems.

Scarlett has also worked with large multinational companies on their climate and nature strategies and has advised standards bodies and framework initiatives on how to raise the bar on corporate action on climate and nature.

SCOTT MCCREADY

Chief Strategy Officer, Alliance for Water Stewardship

Scott McCready is Chief Strategy Officer for the Alliance for Water Stewardship. AWS is both the custodian of a sustainability standard system for major users of water, and a multi-stakeholder membership alliance comprised of the diverse organisations operating at the cutting edge of water stewardship.

Based in London Scott leads on participation in the AWS Standard System, including on strategic engagement with private, public, and civil society organisations, actors and influencers. Scott has a degree in Politics from the University of Glasgow and a Master’s in water governance from Kings College London. Prior to AWS he worked for NGO WaterAid and in the private sector.

SIMON MUNDY

Moral Money Editor, Financial Times

Simon Mundy is the Moral Money Editor at the Financial Times, covering environmental and sustainability issues for the award-winning Moral Money platform and the wider FT.

He began his reporting career in Johannesburg, where he covered Southern Africa for the FT before a period writing on the London financial sector.

He then spent seven years in Asia, heading the FT bureaux in Seoul and Mumbai, before two years travelling through 26 countries on six continents to research Race for Tomorrow, a book on the global scramble to respond to climate change.

SOPHIE ROBINSON-TILLETT

Sustainable Finance Journalist

She has held editor roles at Environmental Finance and Responsible Investor, and is currently a contributing editor at Investment & Pensions Europe.

She's also a Senior Associate at Oxford University's Public and Third Sector Academy for Sustainable Finance.

She trained in journalism at The Guardian. Most recently, Sophie founded Real Economy Progress, where she writes about sustainable finance and ESG issues that affect companies.

SWISA PONGPECH

Head of Research Group, Puey Ungphakorn Institute for Economic Research, Bank of Thailand

Swisa Pongpech currently holds the position of Head of Research Group (Sustainability) at the Puey Ungphakorn Institute for Economic Research (PIER), Bank of Thailand. Prior to joining PIER, she served as the inaugural Deputy Director of the Sustainable Banking Division at the Bank of Thailand, where she played a key role in driving the financial sector commitment to Sustainable Banking.

Throughout her career, she has gained extensive experience working in a broad range of central banking functions and was responsible for the assessment and formulation of policies related to financial landscape development, financial liberalization, financial inclusion and financial markets. She also represented the Bank in several ASEAN working groups.

She holds an M.B.A. in Finance and Strategic Management from SASIN Graduate Institute of Business Administration, Chulalongkorn University and a Bachelors degree in Economics and Political Science from the University of Pennsylvania.

TIM ROWE

Financial Conduct Authority (FCA)

Tim Rowe joined the Financial Conduct Authority (FCA's) Environmental, Social and Governance (ESG) Division at its creation in 2021. Since then, Tim has worked on the implementation across the FCA of the ESG Strategy published in November 2021, publication of the FCA's first climate-related financial disclosure (in July 2022) and its Climate Change Adaptation Report (October 2021). Tim is also leading the FCA's work to publish this year its first net zero transition plan.

Tim has collaborated on ESG issues with colleagues across the FCA's functions, from Operations, Procurement and Corporate Governance to Authorisations, Supervision, Enforcement and Innovation. Prior to this, Tim undertook a range of management roles in Policy, taking in the FCA's response to the Covid-19 crisis (focusing on mortgages and consumer credit), its preparations for Brexit and in Markets Policy (primarily on the negotiations around MiFID 2). Tim is an experienced international negotiator, having led working groups and task forces at both ESMA and IOSCO. Prior to his 13 years at the FCA, Tim worked in a number of roles for the London Stock Exchange Group.

TINA MAVRAKI

Portfolio Director & Strategic Adviser

Tina Mavraki is a portfolio non-executive board director and strategic adviser, and an ESG change-maker. Her 25-year executive career spans global capital markets, physical supply chains, and investment management in C-suite positions.

Tina is a Chartered IoD Director. She is non-executive director of leading energy and metals producer Mytilineos SA, and private-equity-led US First Bauxite LLC. Her advisory portfolio includes US\$ 8.5 billion US debt fund White Oak, and the Children’s Investment Fund Foundation on climate.

On thought leadership, Tina produced for the FCA governance recommendations for climate implementation, and climate-focused executive remuneration. For the EBRD, she authored ESG governance manuals for banks and private equity.

In her executive career with Morgan Stanley and Citi, Tina managed debt portfolios and advised European Debt Management Offices. In physical supply chains, she led multiple transactions in emerging markets. She led strategic co-financing agreements in investment management. She advised the State of Maharashtra, India, on renewable policy and solar tariffs.

Tina is a member of the ecoDA Director Circles and Fellow of Chapter Zero UK.

Tina holds a BA and MA in PPE from Oxford University, and an MSc in Finance from LBS. She is a CFA charter holder and an accredited corporate mediator with CEDR.

VANESSA HAVARD-WILLIAMS

Consultant, Linklaters

Vanessa founded Linklaters’ global ESG practice and is a consultant to the firm. She advises clients across the spectrum of emerging ESG requirements, including disclosure obligations, governance and risk management and the integration of transition strategies into wider corporate governance, culture and management systems.

Vanessa is a member of the UK Government’s Transition Plan working group, and she is Interim Chair of UK Export Finance’s Export Guarantees Advisory Council and sits on the board.

VIKRAM WIDGE

Senior Advisor, Climate Policy Initiative (CPI)

Vikram Widge is Senior Advisor at Climate Policy Initiative (CPI) where he supports strategy and programmatic development, as well as guides financial aspects of CPI’s analytical work. With over three decades of leadership experience in climate and development finance, Vikram specializes in bridging public finance with capital markets and investors to drive a transformation to a low-carbon, climate-resilient future.

Before CPI, Vikram served as Global Head of Climate Finance and Policy at the International Finance Corporation where he led a diverse unit. He has also served in leadership for climate finance across the World Bank Group. In these roles, Vikram directed market-leading work on innovative finance, green bond standards, carbon pricing, climate risk and adaptation, and climate-related metrics and analytics.

WILLIAM MCDONNELL

Chief Operating Officer, Integrity Council (ICVCM)

William McDonnell is Chief Operating Officer for the Integrity Council (ICVCM), the new global governance body to set and enforce threshold quality standards for the voluntary carbon market. Prior to that, he had a 25-year career in financial services. Most recently he was the Group Chief Risk Officer and member of the Group Executive Committee for RSA Insurance Group plc, responsible for Risk, Assurance and Compliance groupwide. At RSA William previously served as Group Financial Controller and Head of Corporate Finance. Prior to RSA, he held roles at HSBC Investment Bank, Aviva, the UK Financial Services Authority and Deloitte. He was a leading voice on climate risk in the financial sector, as a member of the ClimateWise Council and of the Bank of England’s Climate Financial Risk Forum, and as chair of the Emerging Risks Initiative of leading global insurers, publishing a major climate study ‘The Heat is on – Insurability and Resilience in a Changing Climate’.
